Subscription rate per volume of Fizika B (one printed issue in 2001): For Croatia: Members of the Croatian Physical Society 50 HRK, institutions 200 HRK; foreign orders \$ 40.

Correspondence and/or calls regarding subscriptions, renewals, address changes and missing or damaged copies should be addressed to:

Editorial Office, Fizika, Bijenička cesta 32, HR-10000 Zagreb, CROATIA  
Tel. & Fax. (direct) +385-1-4680055, Exchange: Tel. +385-1-4605571,  
Fax. +385-1-4480336, E-mail: ilakovac@phy.hr

Payments should be made by bank transfer to our account, check, bank money order or international postal money order.

Payments in HRK should be made to bank account no. 30102-678-4202

Payments in foreign currency should be made

– bank transfer to ZBZ dd SWIFT ZABA HRXX, account no. 25731-32 39 853 (HFD)

– checks should be sent to the Editorial Office, the payment to: The Croatian Physical Society, account no. 25731-32 39 853.

The journal Fizika B (Zagreb) is financially supported by the Ministry of Science and Technology of the Republic of Croatia

The journal Fizika B (Zagreb) is abstracted/indexed by:  
ALUMINIUM IND. ABS., ENERGY SCITEC, GEOREF, INSIDE  
CONFERENCES, INSPEC, MATHSCI(R), NUCLEAR SCI. ABS., PASCAL  
and UNCOVER

## NUCLEAR PHYSICS

<i>J. H. Hamilton, S. J. Zhu, Y. X. Luo, J. K. Hwang, A. V. Ramayya, P. M. Gore, J. O. Rasmussen and GANDS collaborations:</i> Collective and single-particle structures in neutron-rich nuclei	85
<i>E. Frlež, T. A. Campbell, I. J. Carey and D. Počanić:</i> Radiation hardness of the PIBETA detector components	97
<i>S. Szilner, F. Haas and Z. Basrak:</i> Weak absorption and resonances in light heavy-ion reactions induced by the non- $\alpha$ -type <sup>14</sup> C nucleus	117
<i>N. Takahashi:</i> Radioactive charge carriers in liquid helium created from fast nuclear beams	135
<i>Z. Basrak, R. Pezer and S. Szilner:</i> Orbiting-cluster model with combina- torial level density	145
<i>N. Soić, S. Cherubini, M. Latuada, Đ. Miljanić, S. Romano, C. Spitaleri and M. Zadro:</i> $\alpha$ -particle decay of <sup>10</sup> B and <sup>12</sup> B observed in <sup>9</sup> Be + <sup>7</sup> Li reactions	153
<i>M. Petrovici:</i> How to probe the dynamics of the fireball expansion?	165

- B. Wrenger, M. Fieber-Erdmann, H. Rossner and E. Holub-Krappe:* Development of an online control system for a multi-element fluorescence detector ..... 181

№ 3.

#### GENERAL PHYSICS

- F. Rahaman, G. Bag, B. C. Bhui and S. Das:* A study on Bianchi-IX cosmological model in Lyra geometry ..... 193
- Cao Xuan Chuan:* Singular and exactly solvable potentials ..... 201
- A. Raspini:* Solutions of the chiral Dirac equation ..... 219

#### NUCLEAR PHYSICS

- D. Ghosh, A. Deb, I. Sen (Datta), R. Sarkar, K. Chattopadhyay, B. Biswas, S. Bhattacharyya and J. Roychoudhury:* Evidence of mono-fractal proton emission in  $^{24}\text{Mg}$ -AgBr interactions at 4.5 A GeV ..... 227

#### PARTICLES AND FIELDS

- A. Ya. Berdnikov, Ya. A. Berdnikov, A. N. Ivanov, V. A. Ivanova, V. F. Kosmach, V. M. Samsonov and N. I. Troitskaya:* On hadron production from the quark–gluon plasma phase in ultra-relativistic heavy-ion collisions ..... 235

№ 4.

#### GENERAL PHYSICS

- G. S. Khadekar and S. P. Kandalkar:* Anisotropic fluid distribution in higher-dimensional Rosen theory of gravitation ..... 257
- D. Horvat, Z. Narančić and D. Tadić:* Meson exchange formalism and the definition of delta functions ..... 267
- M. Ribarič and L. Šušteršič:* Framework for finite alternative theories to a quantum field theory. II-Unitarity ..... 275
- M. Martinis and V. Mikuta:* Time operator for a quantum singular oscillator 285
- F. Rahaman, S. Mandal and B. C. Bhui:* Vacuumless global monopole in Einstein–Cartan theory ..... 291

#### NUCLEAR PHYSICS

- J. Honzátko, V. A. Khitrov, A. M. Sukhovej and I. Tomandl:* Two-step cascades following thermal neutron capture in  $^{27}\text{Al}$  ..... 299

## INSTRUCTIONS

Fizika B is a journal publishing the results of original experimental and theoretical research work in general physics, nuclear physics, particles and fields and astrophysics.

Contributions written in English, French, German or Russian are accepted. They should be submitted in duplicate, typed on good quality paper on one side only, with double spacing and wide margins, with original drawings of figures and one further copy of the title and abstract in English if the original is in a different language. The abstract should not exceed 600 letters including all symbols.

The front page of each manuscript should include the title of the paper, author's full name(s), affiliation(s) with full address(es) and preferably the UDC and PACS classification numbers. To speed up communication, authors are encouraged to provide e-mail address, FAX and telephone numbers. Unless requested otherwise, the e-mail address and/or FAX number will be published with the author's address.

International system of units (SI) should be used whenever possible, particularly in quoting final results and in table and figure inscriptions.

The figures should preferably be produced by a laser printer on good-quality white paper or drawn in Indian ink on tracing paper. Figures should be fully lettered. Black and white photographs on glossy paper with high contrast are accepted. Reduction to about 1/3 of the original size is usually used. The lettering in the figures must be large enough to make the final size at least 1.5 mm high. All figures should be numbered consecutively with Arabic numerals in order of appearance in the text, and each should have a descriptive caption.

Each table should be numbered sequentially and should have a descriptive caption.

References should be numbered consecutively with Arabic numbers in square brackets. In the text the abbreviation et al. should not be used for papers written by two authors. All references should be listed on a separate sheet and **should include the names of all authors**. (Except for very large collaborations of more than about 10 authors.) The references should be written using the following style: [5] S. Smith and J. K. Jones, Phys. Rev. **295** (1972) 422.

Equations should be written carefully and clearly and numbered sequentially on the right-hand side. Special care should be paid to all symbols that can be misread, confused or are ambiguous (e.g. to distinguish between subscripts and superscripts). Please add a note in the margin to avoid such ambiguities or to explain special symbols.

The footnotes should be numbered in Arabic superscripts and placed at the bottom of the page in which they appear in the manuscript.

*When typing the manuscript, authors are strongly advised to consult recent issues of Fizika.*

A shorter paper, not subdivided into sections, of less than 600 words in length, with a modest number of illustrations and a short abstract, should be submitted as "Letter to the Editor".

For refereeing purposes only, papers including figures may also be sent by FAX. After the paper has been accepted for publication, the author(s) will be advised to send two original copies, including figures, to the Editor for further processing.

To speed up the publication, the authors of accepted papers are encouraged to send a source file of their papers in standard  $\LaTeX$ (style "article") or in plain  $\TeX$  without any author-defined styles and/or macros, and figures in PostScript format. This can be done by electronic mail or on a floppy disc (MS-DOS). Please read "Instructions for Authors" on our home pages.

When submitting a paper, the authors should include a covering letter, signed by one of the authors, clearly requesting publication of the paper in the journal Fizika.

The submission of the paper will be taken to imply that no copyright will thereby be infringed.

There is no page charge for publication of papers and authors are entitled to 30 free reprints.

The manuscripts of papers accepted for publication are not returned.

Manuscripts for publication and all correspondence should be sent to: The Editor, Fizika, Bijenička c. 32, HR-10000 Zagreb, CROATIA. FAX +385-1-4680 336 or +385-1-4680 055, e-mail: ilakovac@phy.hr.

SERVICE FOR THE READERS OF THE JOURNALS FIZIKA A & B

The contents and abstracts of Fizika A and Fizika B since 1992 (in hypertext) and full articles since 1997 (in ps and pdf formats) are available on the computer network Internet. They can be accessed by using the following URL of our home pages:

<http://fizika.phy.hr/> or <http://www.fizika.phy.hr/>
